

software engineer

about

(512) 922-3599 jrwells10@gmail.com jrwells@wustl.edu

> github.com/jrwells +RobertWells10

programming

Python, Ruby, Java C, C++, Obj-C

software

OS X/Windows/Linux Xcode, Eclipse Visual Studio

other activities

Wash. Univ. Lacrosse St. Stephen's Drumline St. Stephen's Lacrosse Orchestra, JETS

interests

web development, internet applications, e-commerce, entrepreneurship, peer-to-peer, information systems, distributed computing, pattern recognition, artificial intelligence, computer simulation, natural language processing

work experience

06-08, 2013 Caringo Inc, Austin, TX

Software Development Intern

Designed and implemented the server-side of an HTTP communication platform

using Python.

06-08, 2011 **Selenium LTD, Austin, TX**

Lab Intern

Worked on the development of a chemiluminescence test for their selenium

coating technology.

06-08, 2010 **ESO Solutions, Austin, TX**

Quality Assurance Intern

Tested software which helps emergency first-responders connect more rapidly

to hospitals.

education

2010–2014 B.S. in Computer Science

Washington University in St. Louis, St. Louis, MO

Topics included: Object-Oriented Software Development, Systems Software,

Rapid Prototype Development, and Creative Programming.

2006-2010 High School

St. Stephen's Episcopal School, Austin, TX

Topics included: Advanced Biology, Advanced Physics, Astrophysics, Calculus, Chemistry, Latin, and Robotics.

academic experiences

2009 **Purdue University STEP Engineering Program**

Introduction to biomedical and mechanical engineering.

2008-2009 **People to People Ambassador Program**

Traveled to China for 2 weeks, after 8 months of preparatory study. Stayed with

a local family and did community service.

2008 Worcester Polytechnic Institute Frontiers Program

Computer science and music program. Studies included: JavaScript, CGI,

StarLogo, Pearl and Python.
